A recent discovery by an old physician, successfully used for the treatment of all cases of the blood, is the only perfectly safe and reliable medicine known. It is a powerful purifier of the blood, and cures all cases of skin diseases, such as eczema, psoriasis, and all other eruptions. It is sold in Canton and everywhere by all druggists.

**How very foxy and diplomatic our John Sherman is. In an interview at Mansfield, John thinks it is very doubtful "what those fellows will do," (meaning his fellow members of Congress) when Congress meets, on the repeal of the Sherman silver law. Of course John is now willing to see the essence of "all human wisdom" on finance wiped out. In fact the law he framed, only three years ago, as the best essence of human wisdom he then had in stock, is now a dangerous menace to the country, according to John's own confession. We are just wondering what is now John's best essence of human wisdom on finance. We predict it will be bottled as an obstruction.**

## THE MICHIGAN CASE IS A BOOMERANG.

There is considerable newspaper discussion now over the case of Judge Long of the Supreme Court of Michigan, who has had his pension suspended, pending an investigation.

As Judge Long is a wounded soldier there was a powerful vent of indignation among his Republican friends over the alleged outrage. Now that the real facts in his case have been published, the suspension seems to have been based on patriotic grounds. It appears that Judge Long has been drawing a pension of \$75 per month, when it should be \$50 per month; and further that his pension was raised from \$50 to \$75 by Pension Commissioner Tanner, without any medical examination, or any formal application, as the law requires. It also appears that Judge Long drew some \$8,000 back pension, under Tanner's order, which appears to have been irregular.

It also appears that Judge Long is now drawing a salary of \$7,000 per year, as judge. Hence this case is not one to call for patriotic tears. No point should be made against Judge Long because he is drawing \$7,000 per year in salary; but the true and only point is, that he is drawing \$75 per month, when he is, according to the law only entitled to \$50. His pension was increased, as is shown by the record, on personal and political grounds.

The patriotic people of this country are in favor of liberal pensions to all disabled and deserving soldiers, but will insist that all be treated just alike. Many a poor and worthy soldier has had his case pigeon holed in the pension office for two or three years, without hearing, while an influential politician, like Judge Long, has been granted an increase with \$5,000 or \$6,000 back pension, even without formal application.

Fair play is always a jewel. We cannot have too many of these jewels in the pension office.

THERE is quite a stunning array of tax dodgers down in Carroll county, and one of the most conspicuous is named U. C. Deford, and he wants the people to elect him Probate Judge. He returned \$345 to the assessor, while the record shows that he owns about \$20,000 of mortgages, on farms of Carroll county, besides other property not of record. Mr. Deford is a Republican. A man with \$20,000 worth of mortgages, upon which he pays no tax, but upon which he draws interest with great punctuality, ought to live, in the present provision market, without any Probate office.

I. S. We learn that Mr. Deford's mortgages all draw 8 per cent. interest. As farm lands in Carroll county do not pay 3 per cent, Mr. Deford will gobble in most of the mortgaged lands, after a little. This is another reason why he don't need the Probate office.

If there is still a Protectionist that believes that the foreigner pays the tax he has only to go to the World's Fair to have the foolishness knocked out of him. In all the foreign exhibits the price of the article is given, and also the price with duty paid. Thus, in the Belgium exhibit of suitings, price \$1.50 per yard; with duty paid, \$3.00; or cloth, \$1.50, and tax, \$1.50. Then, when you compare the showing made by any foreign country with the miserable display this country makes in the same line of goods, you will be forced to admit that all these years of high protection has been an age of extortion and robbery, and that the foreigner may well laugh at the poor American who clothes himself with half shoddy and the other half tax.—Akron Democrat.

If tomorrow was election day William McKinley would have a majority of 100,000. The people through the State are dissatisfied, and would be a hard matter to get many of them to vote for the best Democrat in Ohio.—East Liverpool Review.

If McKinley were elected by 200,000 majority it would not make the least difference. He was elected two years ago, and we have had financial distress ever since. Taxes have been increased, the State has been robbed on all sides and the institutions have been conducted after the loosest manner possible, officials stealing everything upon which they could get their hands. Besides the McKinley legislature was the most corrupt lot of bootlickers that ever sat in the State house. How is the election of McKinley going to help things?—Stevensville Gazette.

THE McKinley tariff was put on to restrict trade and depress home labor, leaving the Carnegies and Fricks who helped buy the law, free to employ laborers from all the pauper high tariff countries of Europe. They know that labor is on the free list and that prices of necessary commodities are enhanced. They know also that the increased tariff was represented as (more truly represented) for labor, when its direct purpose was to cheat labor. After it was put on, down went wages, as the honest newspapers foretold. And wages will have a continued tendency downward until trade is encouraged by wise tariff changes. Demagogues will spout and belch falsehoods, but the facts stand out so prominently that those who read intelligently can form but one conclusion.

We need a wise financial change, a wise tariff change and business will recover again.—Youngstown Vindicator

PAY me \$600,000 or we will blockade the Menam river, said France to Siam, when seeking redress for alleged outrages on French residents. Let France and the Menam river be damned is the reply of Siam to France.

JOHN M. LANGSTON, the colored Ohio lawyer, who went down to Virginia to get into Congress, made a Fourth of July oration that puts the "mother of Presidents" in an entirely new light, from this point of view and

shows that Langston does not take much stock in colonization schemes for the good of his race. He advised the colored people who lived in Virginia to stay there, saying that in no country, England not excepted, and in no state in this country, were the colored people so well treated, and nowhere did they live under such just and equitable laws or have a better chance to be and become somebody than in Virginia.

THE Mayor of Dublin, 47 members of Parliament and distinguished Irishmen in every line of business and the professions, have petitioned President Cleveland to continue Hon. J. J. Platt as U. S. Consul at Dublin. He was superceded, without notification, by an Iowa man, appointed by Secretary Gresham and this petition in answer is the proudest recognition that could be bestowed upon an American official, and one that President Cleveland will not lightly pass over.

A NEW JERSEY clergyman has found a cheaper remedy for drunkenness than the gold cure, one that will not take the precious metal out of circulation but establishes a brisk circulating medium of its own. He advises wives who have drinking husbands to beat them every time they become intoxicated. "If," he is reported as saying, "drunken husbands construe their marriage vows to give them a right to beat their wives, the wife has an equal right to beat her husband." He encourages the women not to be afraid to carry out this advice, as in nearly every case a drunken man would be found too great a coward to resist.

THE wheat growers of Stark county, the best grain growing county in the state, will read the following from the Toledo Blade concerning the dawning prospects of Northwestern Ohio, with interest:

Ohio last year produced a little more than 38,000,000 bushels of wheat. It is estimated that the crop this year will show about 40,000,000 bushels, but had it not been for the fertile farms of Northwestern Ohio state would have exhibited a decreased production. As it is, Ohio is the only state that will have more wheat this year than last. It has been demonstrated time and again that this section is the garden spot of Ohio. Her fruits are as fine and of as rich flavor as any in the world. Her vegetables are close textured and of quality that gives them ready sale everywhere, and the grain is plump, well filled and of good weight.

## WHAT THE COUNTRY WANTS.

What the country wants, says American Industries, and what Congress should attempt to give it, is a system of taxation which shall rest lightly upon industry and upon the people. Congress should not sit still and wait for comparatively ignorant representatives of the little industries to present long arguments; it should only permit those industries to send in their statements, to be considered when necessary, and should invite well known and able patriots, who have for years been students of social and economic conditions, to present the needs of the people before the committees.

Such a course would be ridiculed as "impractical" by the pearl-button, tin-plated, jackknife and piano-felt men, who figured so prominently in the McKinley bill; but it is time that this country turned its back on these narrow, selfish bigots and gave ear to the broad-minded men who are recognized as authorities on public questions. We should take advantage of the learning of this age by adopting some of the economic principles which are about as firmly established as is the fact that water always seeks a level.

For example, the almost unanimous opinion of authorities for the last fifty years has been that trade is a blessing and not a curse, and that direct is preferable to indirect taxation. Yet here we are trying to kill trade, and using an old fogey method of taxation because it is highly satisfactory to the manufacturers who have taken the trouble to make our taxation laws for us.

The present Congress should legislate for the whole people to whom it owes its existence. If it shirks its duty and legislates for any class or party it may expect the fate of the McKinley Congress.

## M. Maurice Barres.

M. Maurice Barres is attracting considerable public attention, especially in his own country, by the vigorous protest which he recently entered against the unrestricted admission of foreign laborers who usurp the places of the native-born population. This is excused by the authorities on the ground that the native population is on the decrease. M. Barres, a native of France, is still a young man, and went to Paris to study law, but abandoned the plan and devoted himself to literature. Besides writing for a number of periodicals, he is the author of several popular novels. For several years he has been a member of the chamber of deputies.

## A Love Song in M. Flat.

"My modest, matchless Modestine! Mark my melodious midnight moans; Much may my melting mood be known—My modulated monotonies." This young man stayed out too late serenading his lady love. He caught a cold, which developed in catarrh, but he cured it with Dr. Sage's Catarrh Remedy, a sovereign specific for chronic catarrhs, cold in the head, catarrhal headache, it corrects the tainted blood, stops the offensive discharges, heals the irritated throat and nose, leaving the head clear, and small and taste unimpaired. It costs but 50 cents, and the proprietors offer in good faith \$500 for a case they cannot cure.

## CLINGMAN IN COURT.

Fair Directors Must Answer a Charge of Contempt.

## HEARING OF MOTION TOMORROW.

All Except the Electricity Building Will Likely Be Closed at Night—Second Week of the Educational Congress—Drummers' Club House Dedicated.

CHICAGO, July 26.—When the case of Charles W. Clingman, against the World's Columbian Exposition company was called in Judge Stein's court, his attorneys on both sides were present and responded promptly. Lawyer William E. Mason stated briefly his grounds in support of his motion that a rule issue from the court requiring the World's Columbian exposition to show cause why they are not in contempt of the court's order in permitting the gates of the World's fair to be closed on Sunday. He also said that he was agreeable to the suggestion that some time be

## WORLD'S FAIR—JAPANESE EXHIBIT.

set for the hearing. Attorney Eddy, who appeared for the exposition company, assented and the court set the motion for hearing at 9:30 o'clock tomorrow morning, and ordered a rule to issue against each of the directors as they had been regularly served with notice of the proceeding.

Director General Davis has under consideration the proposition of a special order closing all the departmental buildings of the exposition every night of the week at 7 o'clock except the electricity building. There is a general expectation in official circles that the order will be issued in a day or two. The reasons for it are substantial, but the principal one relates to the safety of the buildings and exhibits. Since the reduction of the Columbian guards to 1,500 the administration officers of the fair have been solicitors for the safety of the exhibits in the big buildings. It is well known that nearly all the thefts are committed at night between 6 and 11 o'clock, when the gates are closed and the exhibits go home. Then there is always danger from fireworks at night and it is a good deal easier to control a crowd outside of a building when on fire.

The second week of the National Educational congress is in session, with no apparent diminution in the interest that has so far attended this feature of the series of international gatherings. Many of those that participated in last week's proceedings remained over for the week-end, and the present week-end they were reinforced by prominent educators of both sexes who had found it impossible to put in an appearance on the scene at an earlier date.

The commercial traveler's new club house on Michigan avenue was dedicated and a special programme in honor of the travelers' was given at the Trocadero.

## The Mitchell Bank Failure.

MILWAUKEE, July 26.—The Wisconsin Fire and Marine Insurance bank posted a notice saying the stringency of the money market caused the failure. The only statement shows: Total resources, \$1,040,000; liabilities, the same. Of the liabilities, \$7,570,563.94 was due depositors. The bank is known as the Mitchell bank and United States Senator J. L. Mitchell is the heaviest stockholder.

## Stevenson in Oregon.

SALEM, Or., July 26.—The train conveying Vice President Stevenson and party has arrived here. A large crowd was at the depot to meet and cheer the president and a salute of 19 guns was fired. Governor Penneyer spoke a few words of welcome and the vice president responded briefly, after which the party left on an observation train for Portland.

## Good For Universal Suffrage.

BRUSSELS, July 26.—The chamber of deputies, which is just completing its work on the bill for the revision of the constitution, adopted by a large majority the proposal that three-fourths of the senate shall be elected by direct universal suffrage, and the other fourth by the communal councils.

## DENVER'S UNEMPLOYED.

No Funds on Hand to Aid Them—The Number on the Increase.

DENVER, July 26.—Up to date 8,700 men have registered as out of employment and the list is steadily increasing. Means are being taken to furnish employment and provide food for the hungry and destitute. Dean Peck and Rev. Thomas Uzzell, who have been foremost in this work, announce that on account of the scarcity of relief funds, they cannot continue to feed the hungry longer than today.

Meetings are held nightly to provide means for aid in which Denver's most prominent people take part. It is estimated that 15,000 persons, men, women and children, are in need of immediate aid. Food is being distributed at the various missions. It is developed that the destitution is growing.

## Tried to Mob a Brute.

PLAINFIELD, N. J., July 26.—Charles L. Parmley caught 10-year-old John Taylor stealing an apple from the orchard. He dragged the lad into the cellar, where the child's cries could not be heard, and there strung him up by the thumbs to a post. Parmley then walked down town and boasted of what he had done. The story spread quickly, and a mob gathered at the house. An hour after the boy had been tried up, a policeman rushed into the cellar and found the boy in convulsions, while blood gushed from his mouth and eyes. When the boy's condition became more serious, he was taken to a nearby hospital, where he died. The mob then rushed into the cellar and found the boy's father, who had hidden, and took him to the jail. The boy's father made desperate efforts to kill Parmley. Young Taylor's condition is critical.

## Smuggling Chinese Into the Country.

EL PASO, Tex., July 26.—It has been discovered that from 30 to 80 Chinamen are entering this city nightly from Juarez, Mexico. The importation is being handled by a very rich company of Chinamen and ex-officials of the United States customs service. Almost daily carloads of Chinamen pass through here from San Francisco in bond for Cuba. From Cuba they are transported to Vera Cruz, and from there they come to El Paso. The company is a head and expenses charges for getting them into the United States.

## Her Dead Body Found.

BUFFALO, July 26.—On Saturday last Cora Wheeler, aged about 17 years, disappeared from her home on Elliott street. Her dead body has been found in a vacant lot on Elmwood avenue, adjoining the Congregational church, by some boys who stumbled over it when playing. It had apparently lain there hidden from view by the tall grass. The body was badly discolored, but there were no signs of foul play, and the coroner thinks the girl was taken ill and sat down in the grass to rest.

## Her Affections Damaged.

TIFFIN, O., July 26.—Mary Augler, a Berwick spinster, whose affections have been lacerated to the extent of \$4,000, has brought suit in the common pleas court for that amount against Captain John Kimbel of that village, whom she avers promised to marry her on May 20 and failed to keep his agreement. As Seneca county hasn't had a breach of promise case in 10 years, the suit is something of a novelty.

## Soldiers to Reunite.

STEVENSVILLE, O., July 26.—The "old original" soldiers' reunion will be held in the grove near Caldwell, Noble county, on Aug. 25 and 26. This was the place where the first reunion of soldiers was held in the county in 1874, when General W. T. Sherman was present. One has been held annually ever since.

## Ashtabula's Marshal Shot.

ASHTABULA, O., July 26.—Moralist Alexander Hamill of this city was shot by two burglars whom he was pursuing. Hamill had chased the burglars some distance when they fired upon him. His wounds are said to be fatal.

## A Findlay Bank Closes Its Doors.

TOLEDO, July 26.—The Farmers' National bank of Findlay, O., has closed its doors. No statement has been made as yet. No excitement prevails, and the three other banks in the city are prepared for any run that may follow.

## Burst a Blood Vessel.

TIFFIN, O., July 26.—Art Fry, son of Frank Fry, a wealthy farmer, burst a blood vessel while at work on the farm, and died shortly after. The young man was 22 years old and very popular.

## Seven Professors Dismissed.

MORGANTOWN, W. Va., July 26.—The board of regents of the West Virginia university has adjourned after dismissing seven professors—Ogden, Atkinson, Berkeley, Stuart, Lorentz, Davenport and President E. M. Turner. The new professors are Robert Armstrong, principal of the West Liberty Normal school; Professor Alderson, formerly assistant professor of ancient languages in the university, and Principal Miller of the Fairmont public schools.

## THIRTY INJURED.

A BIG WRECK ON THE BALTIMORE AND OHIO RAILROAD

At Kent at an Early Hour this Morning—Chicago Excursionists Who Received a Rude Awakening—The Injured Being Cared for at Akron.

KENT, O., July 15.—[Special].—A Baltimore and Ohio special train bearing excursionists from Washington, D. C., and Baltimore, bound for Chicago, met with a disastrous accident at Kent at 5 o'clock this morning. The special left Washington and intermediate points Monday and made no other stops along the way. At Kent at an early hour the train of eleven cars was switched over upon the P. & W. track where it ran along some distance when a broken rail threw the last three cars from the track injuring thirty people, some fatally. Many of the people in the cars had been sleeping and this rude awakening came very suddenly to them. Another train was formed and the party of wounded people conveyed to Akron where they were taken care of. The wreck was one of the worst in the history of the road, and immense damage was done to property. No deaths are yet reported.

## SCRATCHED 3 YEARS

Suffered, Scratched and Bleed. Doctors No Relief. Cured by Two Sets Cuticura Remedies.

Nothing like CUTICURA REMEDIES was ever manufactured. For three years I suffered with a sore head. I would break out all over my head with pimples which would form a watery matter, and I would have to scratch myself. After doctoring with two doctors for three years, more or less, I finally made up my mind to try your CUTICURA REMEDIES, with result entirely satisfactory to me. After using two sets I am entirely cured. I have recommended your remedies to several persons, and they all have been cured. I enclose my portrait.
